

Care Basket Donation

The NC Society of Certified Public Managers (NCSCPM) is servicing the community this Holiday Season again by donating care baskets to those in convalescent homes. We are collecting various items to put into the care baskets (needed toiletries, etc.). These care baskets can also go to an older person in their own home who could use a little TLC. These items will be collected from October 18 through December 17, 2010. If you would like to participate, please contact the following people:
